Brief history of the child and reason for Sponsorship:

Tsering is from Tawang, Arunachal Pradesh. She joined school

last year along with few children from her village. Her parents wanted her to learn Tibetan language and tradition which was not taught in her previous school. They wanted her to grow among Tibetan children. She has already completed grade 4 in her previous school but since she doesn't know Tibetan language, she has to repeat grade 4 again. She has well adapted in the new school even though she misses her family very much.

She has an elder brother and younger sister. Both her siblings live with her parents. Her father is a mason. He picks up work at construction sites whenever he gets chance. Her mother is a housewife and looks after her grandparents.

Tsering likes it here at Suja very much. Her favorite subject is mathematics. Though she is struggling with Tibetan language, but she is not losing hope. She wants to become a mathematics teacher in future. She just loves the idea of teaching children.
